Dance Style Options

Classic Tease

This classic vintage style incorporates several elements of sensual dance and acting. It cultivates femininity, a sense of glamour and humour. In this style, you will learn to tease with a feather boa and peel off your satin gloves whilst moving to a traditional slow-grinding jazz song. Participants need enough space to stretch out their arms.

Sultry Chair

This sultry style combines elements of classic burlesque tease, cabaret and modern chair dance poses. Participants express their inner sass using feather boas, satin gloves or top hats whilst dancing on a chair to more modern music genres. Each participant will need their own chair spaced at least 1m apart.

Show-Girl

Think Moulin Rouge and Vegas show girls. This is a very fun and glamorous style, where participants will learn to coordinate their gorgeous bods on cue to energetic music. It is great for laughs as you attempt to walk, kick and pose in sequence just like Vegas show girls. Props include feather boas and fascinators.

Neo-Burlesque

Also known as New-Burlesque; it is the modern-day version of the art of the tease. It is based on classic burlesque performance but also encompasses a wider range of influences including modern dance styles and theatrics. This style is all about women being self-loving, sexy, bold and expressive. Props can include gloves, top hats, canes, scarves and tassel skirts.

Lux-Lap

It is sensual yet very fun style as it requires half the participants dancing on the laps of others. Lux-Lap is a popular routine option for larger groups as it is taught in sections whereby participants rotate between dancing and sitting. Props include feather boas, satin gloves or scarves and participants need one chair between two, spaced at least 1m apart.

Bump, Grind & Shimmy

This style is playful, rhythmic and energetic. In this routine, participants will showcase various burlesque bumps, grinds, shimmies, walks, poses and spicy attitude that gets the 'audience' feeling hot under their collars. Props can include satin gloves and tassel skirts

Venue space and access to chairs need to be considered before requesting a routine style.

Game Options

Bride Seduction The Bride sits on a designated chair in the centre of the room and selects up to four contestants. Each contestant is given one prop. When the music starts, Contestant #1 uses their designated prop to seduce the Bride. The game continues till all contestants have had a turn at seducing the Bride with their prop. The Bride selects one winner.

Musical Laps Similar to Musical Chairs however half of the group are sitting on the chairs whilst the other half are dancing around them. When the music stops, those dancing must sit on the lap of another guest in the circle. At the end of each round, a chair (and lap) is removed till there is only one left. The person to land on the last lap is the winner.

Thong Shot Each player wears 3x thongs on top of their clothes. On Go!, they must take one thong off at a time and sling shot it into a basket in the centre of the room. The player to successfully remove and shoot their thongs in the basket first is the winner. This can also be modified into a team game.

For the Gram This is a small group game. Each team must create a sexy group pose using one or more props provided. This game can also be modified where teams must create a specific object or animal, depending on what the Bride requests.

Twerk It The Bride selects at least three participants. Each participant is given a Twerk Belt, which is a box filled with ping-pong balls that can be tied around the waist. The aim is to twerk out the balls from the box till there are no balls left inside. This can also be modified to a team game.

Get Leid This is a partner game. One player must stand behind the line whilst the other player stands across the room. On Go!, Player 1 tosses the necklace/lei to Player 2, aiming to catch them round their head without using their hands.

All Blown Up On Go!, players attempt to blow up their balloon as fast as they can within the time limit (e.g. 15 seconds). The player with the stiffest balloon is the winner.

Guess Who? The Bride is blindfolded. The Maid-of-Honor selects at least three participants to line up in the centre of the room. The Bride must feel her way up and down each participant to guess who they are.

Garter On, Garter Off Each player starts with a garter on their thigh of one leg. The aim is to remove the garter and put it on their opposite thigh without using their hands.

Prizes can be supplied for the winners of each game at an extra charge.
